ABSTRACT

The HR Dev Hub system for MAS Bodyline is a comprehensive software solution designed for the specific needs of the company's human resources and training departments. This project is divided into two phases, with an emphasis on improving team member management and intern training processes. The Team Member Management area guarantees a simple registration process,

planned training, and successful team member evaluation. The Intern Training Management component, on the other hand, manages intern trainee growth through scheduling, task tracking, attendance monitoring, and a Skill Metric System for skill assessment and feedback. This system's primary focus is on security, usability, and integration, with the goal of improving HR operations, and training outcomes, and enabling data-driven decision-making. Ultimately, the

goal is to develop a trained and empowered staff that will contribute to MAS Bodyline's future success. This comprehensive system addresses various critical issues and obstacles that MAS Bodyline is facing. These include expediting the recruitment process for many employees, eliminating data inaccuracies and misplacement through centralized data management, developing a dedicated system to track intern attendance, and more efficiently planning training sessions. The main goal is to provide the highest quality output with the fewest resources, including time and labor

ACKNOWLEDGEMENT

The work presented in this document was undertaken as part of our second-semester project for the course "Information Technology Project" during our second year. We, the members of the ITP21_WE_B1_3 group, would like to extend our sincere appreciation to everyone who offered valuable guidance and essential support, enabling the successful completion of our project.

We extend special gratitude to all the instructors and lecturers associated with the Information Technology Project (ITP) module, particularly Mr. Samantha Rajapaksha. Their guidance and motivation provided us with the necessary strength from the project's inception, and their substantial support played a crucial role in meeting the project's requirements effectively.

Lastly, we would like to acknowledge the dedication and commitment of all our group members who invested their most effort in ensuring the successful completion of this project. This website stands as the final result of their hard work throughout the semester.

UI - User Interface

1. . Introduction

1.1 Problem Statement

1.1.1 Problem and difficulties they faced

This comprehensive system addresses various critical issues and obstacles that MAS Bodyline is facing. These include expediting the recruitment process for many employees, eliminating data inaccuracies and misplacement through centralized data management, developing a dedicated system to track intern attendance, and more efficiently planning training sessions. The main goal is to provide the highest quality output with the fewest resources, including time and labor.

1.1.2 Solution

The Training Schedule Management System, Administrative Task Management System, Inline Production Onboarding and Evaluation System, Skill Matrix System, Trainee Diary, Training School Activity Management System, Attendance System, and Registration Process Management System are all integrated into the system. These components cover a wide range of HR and training management issues, from scheduling and attendance monitoring to data accuracy and reporting. This HR Dev Hub system aligns with MAS Bodyline's goals of talent development and operational improvement.

1.1.3 Benefits

This system's primary focus is on security, usability, and integration, with the goal of improving HR operations, and training outcomes, and enabling data-driven decision-making. Ultimately, the goal is to develop a trained and empowered staff that will contribute to MAS Bodyline's future success.

1.2 Product Scope

1.2.1 Trainee Registration management system

- As an Employee Manager I want to add new trainee's details to the system so that all the trainee information can be easily accessed for the future needs.
- As a Trainee I want to view all my details so that any relevant information of an employee can be easily retrieved.
- As an Employee Manager I want to delete trainee information when a trainee resigns or gets on-board so that irrelevant information is not collected in the system.
- As an Employee Manager I want to update employee information if there are changes so that the system is kept up to date with specific information only.
- As a Trainee (Intern) I want to attach my CV so that it's easy to manipulate my qualification.
- As a Trainee (Factory Worker) I want to attach my medical report so that it's easy to manipulate my qualification.
- As an Employee Manager I want to view all details of a trainee in a detailed report so that any relevant information of an employee can be easily exported.

1.2.2 Inline Production Onboarding and Evaluation System

- As an Evaluator I should be able to access the team member training summary sheet to get an insight into a certain employee
- As a quality executive I should be able to create a final examination paper to evaluate the team members who completed the training school. The onboarding process will be initiated based on the examination results.
- As an industrial engineer I should be able to search for and request a team member with a certain skill from the training school.
- As an Industrial engineer I should be able to follow up the on the job training of team members and keep records and generate a skill index through the system.
- As a production engineer I should be able to evaluate the performance of team members and generate performance heat maps through the system.

1.2.3 Training and Schedule Management System

- As a training schedule admin, I want to be able to see the employees in a table so that I can view employee details.
- As a training schedule admin, I want to be able to schedule sessions so that the manager and the interns can have the training session.
- As a training schedule admin, I want to be able to see scheduled sessions so that I can analyze them.
- As a training schedule admin, I want to be able to update scheduled sessions so that I can make sure no sessions crash with each other.
- As a training schedule admin, I want to be able to cancel scheduled sessions so that I can make sure a session is canceled if a manager is unable to have the session.
- As a training schedule admin, I want to be able to cancel scheduled sessions so that I can make sure a session is canceled if a manager is unable to have the session.
- As a manager, I want to be able to see all participating interns so that I can get the participant count.
- As a manager, I want to be able to mark the attendance of the participants so that the training schedule admin can view the attendance and send it to higher management if required.
- As a trainee, I want to be able to view my scheduled sessions so that I can get to know them firsthand and attend the sessions.

1.2.4 Attendance and Payroll Management System

- As an Executive Board member, I need to review and authorize high-value payments processed by HR managers. This oversight is crucial for maintaining financial control and preventing unauthorized transactions.
- As a member of the Executive Board, I want access to detailed reports on attendance, payments, and inquiries. This data will empower me to make strategic decisions, assess the organization's financial health, and ensure operational efficiency.
- As an HR manager, I need a comprehensive system to efficiently manage employee attendance. This includes marking attendance, handling leave requests, and

addressing exceptional attendance cases, ensuring accurate attendance records.

- As an HR manager, I require a reliable system to process employee payments based on attendance performance. Additionally, I need access to detailed reports on attendance, payment history, and inquiries to analyze trends and discrepancies effectively.
- As an HR staff member, I need an intuitive interface to handle employee attendance efficiently. This includes accurately marking attendance, managing leave requests, and promptly addressing attendance-related queries.
- As an HR staff member, I require a user-friendly system to process employee payments accurately according to their attendance data. Additionally, I need tools to manage and respond to employee inquiries related to attendance and payments.
- As an employee, I want an accessible platform to manage my attendance effortlessly. This includes marking attendance, requesting leaves when needed, and accessing my attendance history for personal record keeping.
- As an employee, I expect transparency in payments and inquiries. I want to view my payment history, understand payment calculations based on attendance, and create inquiries regarding payments or attendance for timely resolution.

1.2.5 Trainee Diary

- As an intern, I want to be able to create diary records so that I can keep track of what I do.
- As an intern, I want to be able to update a diary record if it needs to be changed so that I can keep up to records.
- As an intern, I want to be able to delete a diary record so that I can remove any mistakenly created records.
- As an intern, I want to be able to view a diary record so that I can get more information about it

1.2.6 Skill matrix System

- As an Intern Trainee, I want to submit my final project and complete a self-assessment skill survey after completing the six-month training to showcase my capabilities.
- As an Intern Trainee, I want to access a personalized dashboard where I can perform actions such as submitting projects and surveys.
- As an Intern Trainee, I want to receive a confirmation email upon successful submission of my project and skill survey.
- As Line Manager, I want a dedicated dashboard to review and manage intern trainees' submissions and skill surveys.
- As Line Manager, I want to search for specific projects using trainee ID.
- As Line Manager, I want to review and evaluate skill surveys submitted by trainees within a dedicated section.
- As Line Manager, I want to submit skill survey evaluations to a specialized scoring system that generates comprehensive reports.

1.2.7 Administrative Task Management System

- As an HR executive, I want to view a dashboard having all the administrative functions of my division.
- As an intern, I want to witness the invention of a system that would help me become the best version of myself.
- As a general manager, I want to view or download reports from one single location without having the need to navigate from one page to another.
- As a trainee team member, I want to have a system with user-friendly interfaces.
- As an HR manager, I want to have a system to improve the efficiency and effectiveness of my department.

1.2.8 Training School Activity Management System

- As a training school instructor, I want to manage all details about fundamental activities.
- As a training school instructor, I want to manage (add, update, view) the member summary sheet and keep all the records of summary sheet for view the history.
- As a training school instructor, I need to view all details of a member's progress and check the day-to-day task of each member in the system.
- As a training school instructor, I need to view all details of a member's progress and check the day-to-day task of each member through the system.
- As a training school instructor, I require a reliable system to process the member induction program.
- As a training school instructor, I want to delete summary sheet information when a member fail the evaluation test or any other necessary reason.
- As a training school instructor, I want an accessible system to generate the member progress report and fundamental activity reports easily.

1.3 Project Report Structure

The following part of the project report contains the Methodology, Testing, Conclusion, and References.

The Methodology contains all the information and diagrams about Requirement Analysis, Design, Implementation.

For the ease of reference, the sequence diagram section and testing section divided into subsystem vies as

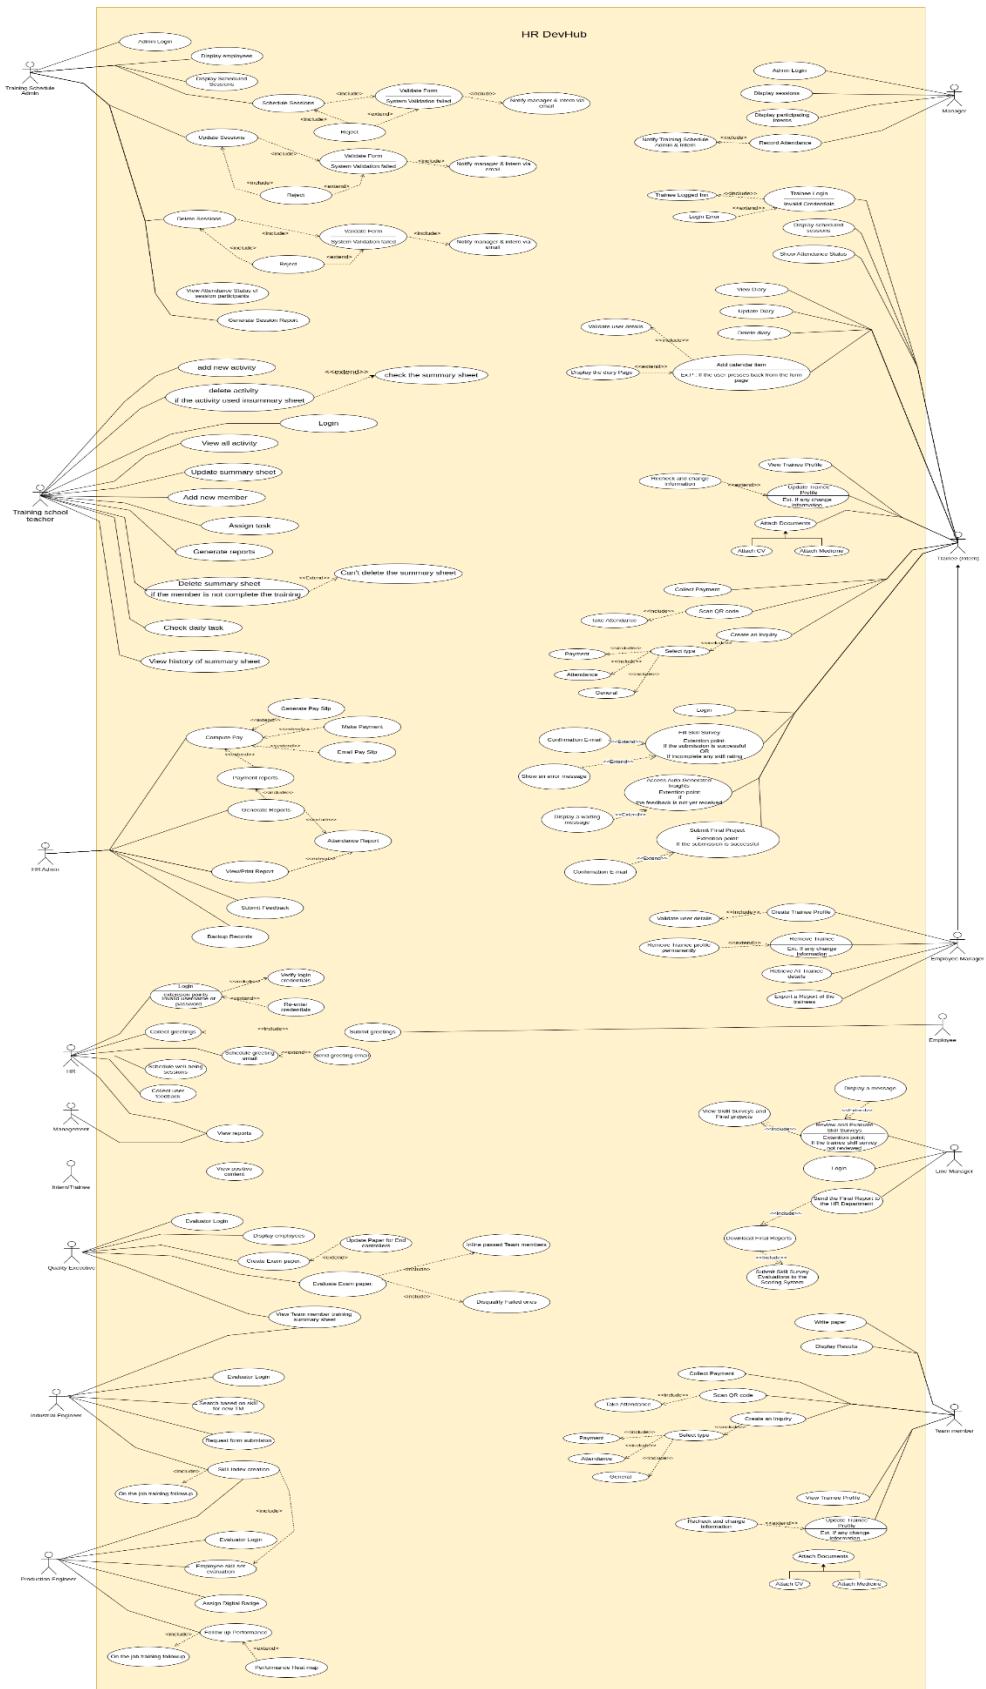

following. All other section continues for the whole section.

- 1.3.1 Trainee Registration management system - (IT21298776 - Bihan H.P.H)
- 1.3.2 Inline Production Onboarding and Evaluation System – (IT21833120 - Seneviratne S.T.)

2.2.3.1 Trainee Registration Management System

The screenshot shows the HR Manager Dashboard. At the top, a yellow circle icon with a sun symbol is followed by the text "Good Evening". Below this is the title "HR Manager Dashboard". On the left, there is a sidebar titled "Options" with the following items: "View Trainees" (with a person icon), "Add New Trainee" (with a plus icon), "Dashboard" (with a house icon), "Inquiries" (with a question mark icon), and "Logout" (with a right arrow icon). In the center, there are three rounded rectangular buttons: "Trainees" (with a building icon) which links to "View All Trainees"; "Report" (with a PDF icon) which links to "Generate Trainee report"; and "Payment" (with a dollar sign icon) which links to "Payroll Management". On the right, there is a "Calendar" section for "October 2023" showing the days of the week from Sunday to Saturday and the dates from 1 to 31. The 30th is highlighted with a red circle.

The screenshot shows the Employee Profiles page. At the top, there is a header with the MAS logo and the tagline "CHANGE IS COURAGE". Below the header, there is a "Menu" section with options: "Home", "Dashboard", "Attendance", and "Employee". The main area is titled "Employee Profiles" and contains a table of employee data. The table has columns: "#", "Employee ID", "Full Name", "First Name", "Last Name", "View", "Edit", and "Delete". The data rows are numbered 1 through 10, with the last row being "EMP011". Each row contains a unique Employee ID, the full name (e.g., "hrdevmanager", "hrdevintern", etc.), and first and last names. To the right of the table are several small red icons for navigation: a home icon, a bell icon, a user icon, a gear icon, and a refresh/circular arrow icon. There are also buttons for "new profile" and "Filter".

2.2.3.2 Inline Production Onboarding and Evaluation System

The screenshot shows the HR DevHub homepage with a red header banner. The banner features three main sections: 'Training School Activity Management' with a camera icon, 'Production Onboarding & Evaluation' with a gear icon, and 'Training Schedule Management' with a clock icon. Each section has a 'Visit System' button. Below the banner is a dark footer bar with the 'HR DevHub' logo, navigation links for 'Home', 'About', and 'Contact', and a copyright notice: '© 2023 HR DevHub. All Rights Reserved.'

The screenshot shows the Quality Executive Dashboard with a dark header bar. The main content area is titled 'Create Final Examination Paper' and includes a sub-instruction: 'Use this interface to schedule a session.' On the left, there is a sidebar with the MAS logo and links for 'Create Exam Paper', 'Evaluate Exam Papers', 'Dashboard', and 'Logout'. The main form fields include: 'Exam Type:' (dropdown menu), 'Exam Invigilator (Invigilator ID):' (dropdown menu), 'Start Time:' (dropdown menu set to '09:00 AM'), 'End Time:' (dropdown menu set to '09:00 AM'), 'Select Date:' (dropdown menu for date selection), 'Select Interns:' (dropdown menu set to 'supun.s@mas.lk'), 'Location:' (dropdown menu set to 'Exam Hall 1'), 'Materials:' (text area with placeholder 'Any specific materials or resources required for the session, such as presentation slides, documents, or tools.'), and 'Add Questions:' (text area with placeholder 'Write your thoughts here...'). At the bottom, there is a 'List of participants' placeholder and a 'Back to home' link.

2.2.3.3 Training and Schedule Management System

The screenshot shows the homepage of the Training and Schedule Management System. At the top, there is a banner with two images: a bridge over water on the left and silhouettes of people dancing on the right. Below the banner, the title "System Functions" is centered. Three main sections are displayed in a grid:

- Production Onboarding & Evaluation** (with a gear icon) - [Visit System](#)
- Training Schedule Management** (with a clock icon) - [Visit System](#)
- Attendance and Payroll Management** (with a person icon) - [Visit System](#)

At the bottom left is the logo "HR DevHub". At the bottom right are links for "Home", "About", and "Contact".

The screenshot shows the "Training Schedule Admin Login" page. The URL in the browser is localhost:5173/training-schedule-mgt/admin/login. The page contains the following elements:

- Admin Email:**
- Password:**
- Login** button
- OR**
- Login with a different role:** [Training Schedule Admin](#), [Manager Login](#), [Intern Login](#)
- [Back to home](#)
- A decorative illustration of a person at a desk with a computer, surrounded by icons for a clock, envelope, folder, and gear.
- A quote in a pink circle: "Forgive yourself for not knowing what you didn't know before you learned it." - Maya Angelou

Good Evening

Intern Responsibilities

The responsibilities of the intern within the Training Schedule Management System include:

1. Attendance: The intern is responsible for attending the scheduled training sessions as outlined in the system. They should ensure their presence during the designated dates and times.

2. Active Participation: Interns are expected to actively participate in the training sessions, engaging with the content, asking questions, and contributing to discussions if required.

3. Preparation: Before each training session, interns should review any materials or information provided by the system or the trainer to ensure they are prepared and can make the most of the session.

4. Self-Management: Interns are responsible for managing their own schedule and ensuring they are available for the scheduled sessions. If they have any conflicts or issues, they should communicate promptly with the relevant parties.

5. Feedback: Interns may be asked to provide feedback on the quality and effectiveness of the training sessions. This feedback is valuable for improving the training program.

6. Learning and Growth: Interns should actively seek to learn from the training sessions, acquire new skills, and apply the knowledge gained to their tasks and projects.

2.2.3.4 Attendance and Payroll Management System

The screenshot shows a leave management application. On the left, a sidebar menu includes "Attendance" and "Leaves". The main form is titled "Leave Request" and contains the following fields:

Trainee ID	Created date
EMP022	2023-10-30T14:12:35.129Z
Reason	Date
Casual leave	Tue Oct 10 2023 00:00:00 GMT+0530 (India Standard Time)
Description	
Family gathering	
Status	
On	
Message	
Back	

The bottom of the screen shows a Windows taskbar with various icons and the system tray indicating the date and time as 10/30/2023 at 7:45 PM.

The screenshot shows the 'Leaves' module of the MAS application. The left sidebar has a 'Menu' section with 'Attendance' and 'Leaves' options. The main area is titled 'Leaves' and displays a table of leave requests. The columns are: #, Reason, Date, Description, Requested date, status, and View. There are four entries:

#	Reason	Date	Description	Requested date	status	View
1	Medical	Tue Oct 10 2023 00:00:00 GMT+0530 (India Standard Time)	svrsunlernebnlerbm kvlkv vvdvklldmer lverlvk	2023-10-29T08:09:09.734Z		
2	Parents meeting	Thu Jan 01 2026 00:00:00 GMT+0530 (India Standard Time)	vdvkdvnjvnjk jrejkvervk vervekrmmilevr	2023-10-29T08:10:11.295Z		
3	fuuerverrenernervjerveverborebrvbo	Mon Aug 10 2020 00:00:00 GMT+0530 (India Standard Time)	jdyvjndnjfdbfdbfdbfknihveriereb	2023-10-29T11:35:10.102Z		
4	Casual leave	Tue Oct 10 2023 00:00:00 GMT+0530 (India Standard Time)	Family gathering	2023-10-30T14:12:35.129Z		

At the bottom, there are 'Previous', 'Page 1 of 1', and 'Next' buttons.

The screenshot shows the 'Attendance' module of the MAS application. The left sidebar has a 'Menu' section with 'Home', 'Attendance', 'Payment', and 'Leaves' options. The main area is titled 'Attendance' and displays a table of employee check-ins. The columns are: Name, Employee ID, Contact, Time, view, Delete, and Action. A tooltip message 'Informed employee over the email: hrdevintern006@diginey.com' is shown above the table. There are eight entries:

	Name	Employee ID	Contact	Time	view	Delete	Action
	Hansaka Bihani	EMP02	robert@example.com	2023-10-08T10:36:40.362Z			
	Alice Brown	EMP013	alice@example.com	2023-10-23T08:27:18.695Z			
	Akila Perera	EMP2	akila@gmail.com	2023-10-23T08:27:44.302Z			
	Sachini Perera	EMP021	intern012@diginey.com	2023-10-28T09:32:08.717Z			
	Samantha Perera	EMP009	hrdevintern006@diginey.com	2023-10-28T13:25:36.828Z			
	Rajitha Fernando	EMP007	hrdevintern008@diginey.com	2023-10-29T01:17:18.190Z			
	Sachini Perera	EMP021	intern012@diginey.com	2023-10-29T01:17:50.051Z			
	Akila Perera	EMP2	akila@gmail.com	2023-10-29T01:18:24.959Z			
	hansaka	EMP99	hdhd@gmail.com	2023-10-29T01:21:50.738Z			

At the bottom, there are 'Previous', 'Page 1 of 1', and 'Next' buttons.

The screenshot shows the MAS Attendance Tracker Admin Dashboard. The left sidebar has a 'Menu' section with 'Home', 'Attendance', 'Payment', and 'Leaves' options. The main content area is titled 'Attendance' and displays a message 'No records available'. At the bottom, there are 'Previous' and 'Next' buttons, and a page number 'Page 1 of 0'. The top right features a navigation bar with icons for home, notifications, user profile, settings, and a green circular badge with a 'M'.

The screenshot shows the MAS Leave Request creation form. The left sidebar has a 'Menu' section with 'Attendance' and 'Leaves' options. The main content area is titled 'Create Leave Request'. It includes fields for 'Reason' (set to 'Casual leave'), 'date' (set to '25'), and 'Description' (set to 'Family gathering'). A validation error message is displayed above the date field: 'date must be a 'date' type, but the final value was: 'Invalid Date' (cast from the value ''25''). A 'Create Leave' button is at the bottom.

2.2.3.8 Training School Activity Management System

The screenshot shows a web browser window titled "All activities in Training school". The URL is "localhost:5173/training-scl-activity-mgt/activity". A search bar at the top contains the text "bm". Below the search bar is a green button labeled "+ Add" and a red button labeled "PDF". The main content area displays a table of activity data. The columns are: Activity ID, Name, STD Time, Hand Type, Start Date, Update, and Delete. The data rows are:

Activity ID	Name	STD Time	Hand Type	Start Date	Update	Delete
A001	BMB-01	14:17	Both	2023-10-25		
A002	BMB-0222	04:20	Left	2023-10-27		
A007	BMB-03	14:01	Both	2023-10-27		
A56886	BMB-02	14:17	Both	2023-10-25		

At the bottom of the table, it says "Page 1 of 1". On the left side of the screen, there is a sidebar with icons and labels: Home, Dashboard, Profile, Activity, and Member. The status bar at the bottom shows the Windows taskbar with various pinned icons and the date/time "10:27 PM 10/30/2023".

The screenshot shows a web browser window titled "Update Activity". The URL is "localhost:5173/training-scl-activity-mgt/activity/edit/653cc9ebe0c63b5fab4fdc49". The main content area displays a form titled "Update Activity". The form fields are:

- Activity ID: A001
- Name: BMB-01
- Hand Type:
Both Left Right
- Start date: 10/25/2023
- STD Time: 02:17 PM
- Description: asdasd

On the left side of the screen, there is a sidebar with icons and labels: Home, Dashboard, Profile, Activity, and Member. The status bar at the bottom shows the Windows taskbar with various pinned icons and the date/time "10:28 PM 10/30/2023".

The screenshot shows a web browser window titled "HR DevHub" at "localhost:5173". The page has a dark blue header with the title "System FUNCTIONS" in large white letters. Below the header are three cards, each representing a system function: "Administrative Task Management" with a wrench icon, "Registration and Profile Management" with a user icon, and "Training School Activity Management" with a school building icon. Each card has a "Visit System" button at the bottom. The browser's address bar shows "localhost:5173/training-scl-activity-mgt/login". The taskbar at the bottom includes icons for File Explorer, Google Chrome, and other system tools.

The screenshot shows a web browser window with the URL "localhost:5173/training-scl-activity-mgt/login". The main content area displays the "Training School Instructor Login" page. It includes a large title, placeholder text for instructor information, and input fields for email and password. A "Login" button is located at the bottom left. To the right, there is a decorative sidebar featuring a cartoon character of a woman wearing a headset, sitting at a desk with a computer. The sidebar also contains various icons related to communication and administration.

2.3 Implementation

2.3.1 Tools used for the Development

Software	Usage
Visual Studio Code	For coding environment
MongoDB	For database management
Google Chrome	For the display web pages
Figma	For the user interface design and prototype
React (Javascript Library)	For develop the frontend
NodeJS	For develop the backend (server environment)

1.1 Test cases

Testing Function: Search Activity

Test Case Designed By: IT21833366

Test Priority (High / Medium / Low): High

Pre-conditions (if there are any): Training school Instructor must have log into the system

Test Steps:

1. View activity list
2. Search by the Activity name or activity id
3. Then it shows the relevant activity details

Test ID	Test Inputs	Expected Output	Actual Output	Result (Pass/ Fail)	Description
08	Activity name Or Activity ID	A001 Needlin Left 2023 – 06 – 11 12.23.00	A001 Needlin Left 2023 – 06 – 11 12.23.00	Pass	Instructor can search activity details from the existing activity list by giving a particular Activity name or Id. So that he can view the activity from that particular activity name Comment: Sorted data has been displayed.

Testing Function: Add Activity

Test Case Designed By: IT21833366

Test Priority (High / Medium / Low): High

Pre-conditions (if there are any): Training school Instructor must have log into the system

Test Steps:

1. click the activity tab and navigate to the activity page
2. click the add activity button and fill the activity form
3. click the submit button
4. pop up the activity added successful message alert

Test ID	Test Inputs	Expected Output	Actual Output	Result (Pass/ Fail)	Description
08	Activity id Activity name Hand type Start date Std time	Add activity details. to system. After that alert display “Successful”	Add activity details. to system. After that alert display “Successful”	Pass	Instructor logged in to the system and add the activity with giving details correctly and save that details in the system

Testing Function: Update Activity

Test Case Designed By: IT21833366

Test Priority (High / Medium / Low): Medium

Pre-conditions (if there are any): Training school Instructor must have log into the system

Test Steps:

1. click the activity tab and navigate to the activity page
2. click the update activity button in the relevant activity in the table and update the activity form
3. click the submit button
4. pop up the activity updated successful message alert

Test ID	Test Inputs	Expected Output	Actual Output	Result (Pass/ Fail)	Description
08	Activity name Hand type Start date Std time	Update activity details. to system. After that alert display “Successful”	Update activity details. to system. After that alert display “Successful”	Pass	Instructor logged in to the system and update the activity with giving details correctly and save that details in the system

Testing Function: Delete Activity

Test Case Designed By: IT21833366

Test Priority (High / Medium / Low): High

Pre-conditions (if there are any): Training school Instructor must have log into the system

Test Steps:

1. click the activity tab and navigate to the activity page
2. click the delete button
3. pop up the activity deleted successful message alert

Test ID	Test Inputs	Expected Output	Actual Output	Result (Pass/ Fail)	Description
08	Click the “Delete” button in a Particular activity detail	Show Message “You Successfully deleted the activity”	Show Message “You Successfully deleted the activity”	Pass	Instructor delete a particular activity detail Comment: Activity has been successfully deleted from the database.

Testing Function: Delete To-Do data

Test Case Design By : IT21806636

Test Priority (High/Medium/Low): High

Pre-Conditions (If there are any): Trainee must have log into system

Test Steps:

- 1.click delete button on To-Do table
- 2.selected row has been Deleted

Test ID	Test Inputs	Expected Output	Actual Output	Result (Pass/Fail)	Description
05	Click the “Delete” button in a To-Do table	Selected row has been deleted and a column in the table appears to be missing.	A column in the table appears to be missing.	Pass	Trainee delete row details. Comments: Trainee has been successfully deleted from the database

Testing Function: Update To-Do data

Test Case Design By : IT21806636

Test Priority (High/Medium/Low): High

Pre-Conditions (If there are any): Trainee must have log into system

Test Steps:

- 1.click Edit button on To-Do table
- 2.Open edit details form Page

Test ID	Test Inputs	Expected Output	Actual Output	Result (Pass/Fail)	Description
05	Click the “Edit” button in a To-Do table	When the edit button is clicked, the edit details form opens and after filling the fields there, the dashboard opens after submitting and the data in the relevant column is updated.	When the edit button is clicked, the edit details form opens and after filling the fields there, the dashboard opens after submitting and the data in the relevant column is updated	Pass	<p>Trainee update row details.</p> <p>Comments: Trainee has been successfully update from the database</p>

Testing Function: Add To-Do data

Test Case Design By : IT21806636

Test Priority (High/Medium/Low): High

Pre-Conditions (If there are any): Trainee must have log into system and retrieve details.

Test Steps:

- 1.click Add To Do button on bottom of the dashboard
- 2.Open edit details form Page

Test ID	Test Inputs	Expected Output	Actual Output	Result (Pass/Fail)	Description
05	Click the “Add To Do” button in a To-Do table	When the “Add To Do” button is clicked, the View details page opens and after adding the new fields there, Trainee can click the “Generate PDF” button and download it.	When the “Add To Do” button is clicked, the view details Page opens and after filling the fields there, download the pfd.	Pass	Trainee added details and successfully download PDF Comments: Trainee has been successfully add data from the database

Testing Function: Search data

Test Case Design By: IT21806636

Test Priority (High/Medium/Low): High

Pre-Conditions (If there are any): Trainee must have log into system and retrieve details.

Test Steps:

1. View dashboard
2. search by titles in the table

Test ID	Test Inputs	Expected Output	Actual Output	Result (Pass/Fail)	Description
05	titles	Search any title columns Data.	Search any title data and, given that searched data	Pass	<p>Trainee can search Data from the table.</p> <p>Comments: Sorted data has been displayed.</p>

Testing Function: Test the Filling Skill Survey

Test Case Designed By: IT21833298

Test Priority (High / Medium / Low): High

Pre-conditions (if there are any): Trainee must have log into the system

Test Steps:

1. Log into the system
2. Move to the Intern Dashboard
3. Click on the evaluate button in the skill survey card
4. Fill the survey with Intern credentials and skills
5. Click submit button

Test ID	Test Inputs	Expected Output	Actual Output	Result (Pass/ Fail)	Description
06	Trainee- Radul Trainee Id- IT123 Description- Technical Proficiency- 20 Problem Solving- 40 Communication Skills- 60 Team Collaboration- 80 Adaptability- 40	Display the validation message “Enter your Description”	Display the validation message “Enter your Description”	Pass	Submitting form without filling the description section.

1. Conclusion

1.1 Objectives

Objective of HRDev hub is to streamline the end to end process life cycle of a trainee within MAS-Bodyline. Objective of the System is to keep track on the onboarding process of employees and manage their training in a useful manner to give insight toward the company in their future recruiting process while creating a management system within the company as well

1.2 Goals

- Develop a web-based platform that facilitates automated data input, data modification, data retrieval, and data removal
- Offer efficient and simplified methods for automatically maintaining all necessary records through a centralized database, eliminating the need for manual file storage.
- Avoid data redundancy, data inconsistency by properly storing.
- Create using graphical, friendly interfaces, images, and videos to make the user comfortable

1.3 Benefits of the system

- ✓ Reduce operating cost
- ✓ Better data management
- ✓ Minimize data redundancy and processing errors
- ✓ Reduce data entry
- ✓ Store data in a secure database
